## W. J. BRYAN ANSWERS PRESIDENT TAFT

Knoxville, Tenn., Sept. 25.—Answering the challenge of President Taft, made in Cherryvale, Kan., today, that he produce an example of restraint of trade which would not come within the purview of the supreme court, W. J. Bryan said tonight before his departure for Cincinnati:

"If President Taft would take time to read the dissenting opinion of Justice Harlan in the oil case and a report of the judicial committee of the senate, filed by Senator Nelson when the committee refused to recommend the amendment which the supreme court injected into the law, he will understand my view of the subject.

"I believe with Justice Harlan and the Nelson report that the supreme court has practically nullified the criminal clause of the anti-trust law, and will wait until the president succeeds in putting a trust magnate in the penitentiary before I give any weight to the president's defense of the decision of the supreme court.

"It took four years and a half to get the decision in the Standard Oil case. If it takes that long to find out whether a trust magnate can be sent to the penitentiary under the law as emasculated by the supreme court, President Taft may be able to bluff his way through another campaign on the trust question as he did through the last, but the bluff ought not to deceive anybody who is really opposed to the trusts."

## TO HAVE AUTOMOBILE FLOWER PARADE

The automobile flower parade is to be given on Tuesday, October 10, the second day of the Maryville free street fair. The committee in charge of this parade are R. G. Sanders, Ralph Marcell and Harry Alderman. As yet no meeting of the committee has been had, but one will be in the next few days.

### Pennsylvania Guests Leave.

Scott, left Monday evening for their home. They spent a day in St. Joseph with another niece of Mrs. Blair, Mrs. H. A. Sawyers, and her family, with whom they visited before coming to Maryville. They will also stop in Chicago for a short visit.

### Left for Portland.

Harlan Thompson of Portland, Ore., who has been visiting his parents, Mr. and Mrs. J. S. Thompson, and his sisters, Mrs. J. D. Ford of this city, and Mrs. A. T. King of near Pickering, left Tuesday morning for his home. Mr. Thompson is in the auditor's office of the Spokane, Portland & Seattle Railway company, a position he has held for three years.

### Returned From Illinois.

Mr. and Mrs. Gottlob Maier returned Tuesday morning from a month's visit at their old home in Sherrard, Ill. While there they attended the annual soldiers' reunion of the 102d Illinois, of which Mr. Maier was a member. He met twenty of his old army comrades whom he had not seen since he was mustered out of the service in 1865.

## WILL JUDGE CATTLE TO HIRE ENGINEERS

C. D. BELLONS AND E. F. CALDWELL AT ST. JOSEPH THIS WEEK.

## EXPECT TO WIN RIBBONS IF COUNCIL APPROVES

Catterson Entries Are Among the Very Best in the Aberdeen-Angus Class.

The International Live Stock show opened at St. Joseph Monday and will continue the rest of the week. Charles D. Bellows of this city will judge the Shorthorns. E. F. Caldwell of Burlington Junction will judge in the Aberdeen-Angus and the Galloway divisions.

J. E. Dowden of this city has a few exhibits in the shire class at the show. The St. Joseph News-Press, in speaking of Omer Catterson's fine bunch of Aberdeen-Angus cattle, says: Omer Catterson and son, Albert R. Catterson, of Maryville, Mo., are here with twelve splendid Aberdeen-Angus cattle and they hope to carry off many ribbons. Mr. Catterson is one of the directors of the show and has many friends here.

Miss Quality, a 2-year-old heifer, is one of the headliners in the Catterson herd. She has been showing ever since she was a calf and has never stood lower than second. While a calf she was in a herd of five that took first premium at the international show. As a yearling she took second here last year and also at Chicago. The only animal that ever defeated her was Barbara Woodson, a heifer owned by W. J. Miller of Newton, Ia. Barbara Woodson, by the way, is here again this year.

Another headliner in the Catterson herd is Queen's Quality Lad, a 2-year-old bull. He was at the head of the calf herd of five that took first place at the great Chicago show in 1909. All of that herd was bred by Omer Catterson and son. Queen's Quality Lad was first everywhere as a calf in 1909 and was second in 1910 as a yearling.

Mr. Catterson claims for the Aberdeen-Angus that they dress out better than any other breed of beef cattle. He says they are smoother and have less fat and waste than either the Shorthorns or Herefords.

## MAY TAKE RUN TO CLARINDA SUNDAY

A sociability run will probably be made by the Maryville Automobile club to Clarinda, Ia., Sunday. However, it has not been definitely decided.

### In a Hole in the Wall, \$1,099.

Anderson, Ind., Sept. 25.—For fifteen years Henry Klus, a prosperous florist, dropped odd pennies, nickels and dimes into a crevice in the wall of the kitchen of his home. Today he cut away the plaster and loathing that covered the depository and \$1,099.54 rolled out on the floor at his feet.

### Auto Party Returned From Clarinda.

Miss Elsa Griffith, Mr. Myron Clark, Miss Nettie Clark and Mr. Fred Montgomery arrived in Maryville Saturday morning from Clarinda, Ia., where they had been attending the fair Thursday and Friday. They made the trip in Mr. Clark's new car, a Hudson 33.

## BOARD OF PUBLIC WORKS DECIDED ON HIRING TWO FIRMS.

Burns & McDonald and Hiram Phillips Will Be Hired—Council Is Meeting This Afternoon.

The board of public works met Tuesday morning and decided on hiring two engineering firms—Hiram Phillips of St. Louis and Burns & McDonald of Kansas City—if this will meet with the approval of the city council. The object of hiring two firms and working independently of one another, the board believes, will be the best possible way for the city to arrive at a true value of the present water company's plant and for any other estimate or valuation they want in getting the municipal water plant started in Maryville.

A meeting of the city council is called for this afternoon at 3:30 when they will decide whether the board of public works should hire two engineering firms. It is thought that the city will give their consent to the board to do so.

They were fortunate and happy in having all their children with them at dinner. Those present were Mr. and Mrs. Embree, Mr. and Mrs. B. O. Mills of Chicago, Rev. and Mrs. Charles R. Haudenschild of Chicago, Brintnell R. Embree and Miss Ethel Embree. Rev. and Mrs. Haudenschild left Tuesday for Los Angeles, Cal. They will spend the winter in Southern California, where Rev. Haudenschild will be engaged in his work as an evangelist. The many friends of Mr. and Mrs. Embree will extend to them sincere congratulations on their anniversary and sincerely wish they may celebrate their golden wedding as happily with their children and in the possession of as good health as they now enjoy.

### Returning to Chicago.

Mrs. Robert D. Campbell of Chicago, who has been visiting at the home of her mother, Mrs. C. W. Messenger, and with her daughter, Marla Cutler, left Tuesday evening for Kansas City to meet her husband. They leave Friday night for their home in Chicago. ## ASSISTANT POSTMASTERS NOW UNDER CIVIL SERVICE

"The assistant postmaster has been taken out of politics. He is no longer at the mercy of political preference. By the postmaster general's recommendation his classification under the civil service laws has been made identical with that of all other postal employees subject to civil service."

The foregoing statement, made by George Daniel, inspector-in-chief of the postal service in Missouri, Arkansas, Oklahoma and Texas, to the annual convention of the Missouri State Association of Assistant Postmasters at Kansas City yesterday.

Although postmasters may come and go, the assistants will stay on, Mr. Daniel explained. Besides, they will be given opportunities for advancement impossible under the old system. They can now be promoted to larger cities, with bigger salaries, or given inspectorships, which also pay better salaries.

## ONE MORE REST ROOM FOR STREET FAIR

Dr. G. A. Nash has offered his office rooms as a temporary resting place for visitors to the Maryville street fair, October 9 to 14.

This brings to mind the fact that the women of the Twentieth Century club and the charity board have endeavored to bring up the matter of permanent rest rooms at various times. The charity board found out that there is an excellent place, large and roomy, in the basement of the court house that is only waiting to be set apart for such purpose and furnished. It is also said that it is probable that a room in the basement of the city library may be furnished for a rest room during the street fair, at least, and maybe permanently.

## WAS A PROMINENT REBEKAH IN KANSAS

Miss Harriet Noble of Coleridge, Kan., who has been visiting a few days at the home of her cousin, Charles E. Jones, and family, north of the city, and with Mrs. Elmer Fraser and other old friends, left Tuesday morning for her home. Miss Noble came to Maryville Saturday with the body of her sister, Miss Mary Noble, who died at their home Thursday morning after a long illness of typhoid fever. Miss Noble had always been in good health previous to her last illness. She was a prominent member of the Rebekah lodge in Kansas, and was to represent Kansas at the national assembly to be held in Kansas City.

Miss Harriet Noble, who was a well known teacher of this county, met a number of her former pupils while here. Her father, Judge M. D. Noble, is 84 years old and is in very feeble health. Mrs. Noble died in 1883, and the body of their daughter was buried by the mother in Miriam cemetery.

## JERRY SAYLER WITH BANK IN DES MOINES

Jerry Sayler of Des Moines, Ia., the son of Judge and Mrs. J. H. Sayler of this city, has just accepted a position with the Commercial Savings bank of Des Moines and will commence his duties the first of October. The offer of this position came to the young man unsolicited. He has been in the offices of the American Yeoman the past two years and was holding next to its highest salaried position. On Monday of this week he was called by phone to the president's office of the Commercial Savings bank and was made an offer that means advancement in the future, and after seeking advice from his American Yeoman employers, he decided to accept it. This certainly speaks well for Jerry. Another Maryville boy is doing his home town honor.

### Have a Granddaughter.

Mr. and Mrs. Henry Cook of this city received word Monday of the birth of a daughter to their son, W. R. Cook and wife of Shawnee, Okla. The baby has been named Iona Ellen for its two grandmothers. Mr. and Mrs. Cook of Shawnee are well known here and visited here a year ago.

## TO BROOKFIELD THIS WEEK

Where the Annual Conference Will Be in Session This Week—Maryville Entitled to It.

Dr. J. S. Ford, pastor of the First M. E. church of this city and Presiding Elder W. B. Christy of the Maryville district, left Tuesday for Brookfield, Mo., where they will attend the annual Missouri conference of the Methodist Episcopal church. E. C. Curman will probably leave Friday to attend the conference as a lay delegate from the local church.

Efforts will be made by the First M. E. church and Maryville to secure the conference for 1912. This was decided at a meeting held Monday night of the quarterly conference. It has been twelve years since the conference has met in Maryville, and the local church feels that this city is entitled to it for next year.

The conference brings many people to a city, and besides the religious good, it is a great benefit to any city to have the meeting of the conference. Maryville would be glad to have the conference meet here in 1912, and it is needless to say that they will be entertained royally if they decide to come.

## PHELPS FAMILY WILL GO TO NEW MEXICO

Mrs. Lydia Wilkerson left Monday evening for a few days' visit near Barnard with her brother, James Phelps, and family. Mr. Phelps and his family will leave in a few days for Raton, N. ## 350 FRENCH SAILORS KILLED

**Battleship Liberte is Wrecked When Fire Reaches Magazines. SHIP IS TOTALLY DESTROYED.**

**Pride of French Navy Shattered by Explosion—Bodies of Victims Hurdled High in Air—Cruiser Republique is Badly Damaged.**

Toulon, France, Sept. 26.—Between 350 and 400 men of the French battleship Liberte lost their lives when the ship was torn apart and totally destroyed in the harbor here by an explosion of her magazines. The battleship Republique was badly damaged and the battleships Democratic and Verite also suffered severely from the masses of twisted iron and armor plate hurled upon their decks.

This is the greatest disaster that has ever fallen upon the French navy and in magnitude is almost without precedent in the annals of the world's fighting ships.

The explosion, which wiped out one of France's newest and most powerful battleships, occurred at 5:53 o'clock in the morning. It was preceded and was the result of an outbreak of fire. The flames spread rapidly in spite of all efforts to extinguish them and reached the magazines before there was time to flood them. The magazines exploded with tremendous violence, sowing death and destruction in every direction.

It is impossible to tell the full number of fatalities. Several men already have been taken alive from the torn and twisted mass of wreckage which was once the Liberte, and the hope is strong that there are others who can be reached.

### Fire Cause Unknown.

Exactly from what cause or when the fire broke out has not been established, but it is believed it had smoldered for hours. Of the vessel's full complement of 742, Captain Jaures, brother of the Socialist leader, and the second officer in command were both ashore on leave, as well as 140 officers and men. The command of the ship devolved upon the senior lieutenant, who perished.

The fire was first discovered at 4 a. m., and the tugboats immediately sounded the alarm. The crew rushed to quarters and fought desperately the spreading flames, but it was soon evident that the fire had obtained a firm hold.

The position of the fire made it impossible to flood the magazines, nevertheless efforts to do so were made, and finally the commanding officer shouted to the men to jump for their lives.

At 5:35 the first explosion occurred. It was followed by three others at one-minute intervals. Then came the final terrific detonation, which shattered the windows of the entire city and was heard for many miles.

The Liberte was rent asunder, her bows were thrown high in the air and then the vessel slowly settled down and in nineteen minutes nothing was visible but the top works.

### Men Hurdled Skyward.

Those still on deck were hurled skyward amid a shower of iron and steel. The boats of the rescuers were sunk and serious damage was done to the Republique, which lay at anchor close by. Two of her decks were stove in and one of the Liberte's armor plates was hurled against her port side and demolished the cabin of an absent engine.

The work of rescue was quickly begun. Electric shears to cut through the plates and a powerful floating crane to lift the masses of steel were used in conjunction with divers, who are at work exploring the interior of the hull.

### REL'EF FOR FRENCH POOR

Paris, Sept. 26.—In view of the increased cost of food, the government has induced the railroads to increase the twenty-pound limit of the agricultural parcels post to eighty pounds for perishable foods.

### BROKER'S AIN BY WIFE

**C. A. Patterson Shot by Spouse in Denver Suburb.**

Denver, Sept. 26.—Charles A. Patterson, formerly a wealthy broker of Chicago, was shot and killed by his wife, Mrs. Gertrude G. Patterson. Charges of infidelity, threatened divorce suits and other marital troubles are given as the cause.

The shooting occurred in Montclair, a suburb. Two shots were fired, both striking Patterson in the back. Mrs. Patterson then thrust the revolver under her husband's body and informed bystanders that her husband had shot himself. Later she confessed when confronted with a statement by an eye-witness of the shooting.

Months of matrimonial disorder culminated in Mrs. Patterson filing suit for divorce in the Denver courts on Sept. 1, 1911, charging cruelty. On Sept. 20 Patterson brought suit in Chicago against Emil W. W. Strauss, millionaire clothing manufacturer, asking \$25,000 damages for alienation of his wife's affections.

Patterson charged that four months after his marriage on Oct. 1, 1908, Strauss and Mrs. Patterson eloped and spent several months traveling in Europe.

Seven months ago, accompanied by his wife, Patterson came to Denver and, because of failing health, entered a sanitarium for consumptives.

Mrs. Patterson called at the sanitarium and the couple left for a walk. That the pair engaged in a heated argument just prior to the shooting is declared by a person who claimed to have watched them.

Patterson's mother is principal of one of Chicago's public schools. Mrs. Patterson comes from a prominent St. Louis family.

## COUPLE FOUND DEAD ON RANCH

**Dead Woman Daughter of Ex-Governor of Wyoming.**

Cheyenne, Wyo., Sept. 26.—Mrs. Edna Richards Jenkins, youngest daughter of former Governor W. A. Richards of Wyoming, and her husband, Thomas Jenkins, assistant manager of the Richards ranch near Red bank, Wyo., were found dead with bullet holes through their bodies. Jenkins' body was found in bed in the ranch house, while Mrs. Jenkins was under a tree in the yard. The discovery was made by children of former State Senator George McClellan, a partner of Richards in the cattle business.

It is not known whether both were murdered, or whether Jenkins killed his wife and then committed suicide.

### AFFAIRS IN MOROCCO EASIER

**Paris Expects Agreement With Germany in Near Future.**

Paris, Sept. 26.—While the Franco-German agreement on Morocco cannot be definitely regarded as an accomplished fact until it is known how Herr von Kiderlin-Waechter, the German minister of foreign affairs, receives the newly revised French text, no doubt is entertained that the first part of the negotiations will be quickly ended by a complete understanding, without further pourparlers or an exchange of notes.

The second part of the negotiations, which concern the Congo, will be commenced shortly. During the progress of the negotiations France and Germany will take all necessary steps to secure the adhesion of the powers in the new situation in Morocco resulting from the agreement.

This task is not likely to present special difficulties, except in the case of Spain. The cordiality which exists between France and Spain over the Moroccan policies somewhat complicates affairs, but French opinion declines to admit that the two Latin sisters will remain embroiled and believes that the good sense of Spain will soon lead her to realize that her interests will best be served by facilitating the mission of France in Morocco.

### MILLIONAIRE GOES BROKE

Boston, Sept. 26.—A penniless millionaire is not a common sight, but Charles F. Nisson, one of Kansas' wealthiest produce men, came near answering that description when he arrived here from Naples on the liner Canopic. Nisson's temporary financial embarrassment was due to the failure of the Canopic to make its scheduled stop at Almeria, Spain, where his bankers had sent him a remittance. Funds were awaiting the Kansas when the Canopic docked here.

## FARMERS CALLED SOIL ROBBERS

**Henry Wallace Makes Plain Talk at Conservation Congress.**

### URGES SCIENTIFIC METHODS.

**Makes Plea for Back to Farm Movement and Betterment of Social Conditions in Country—Hadley Says Present Methods Are Wasteful.**

Kansas City, Sept. 26.—Plain words were used by speakers at the opening session of the third annual conservation congress here in pointing out that the continuation of present day farming methods will result calamitously for the country. Not only a change in the treatment of the soil, but of the country people as well was

THOMAS R. SHIPP.

urged. Only by bettering social conditions on the farm, it was declared, could the young persons be kept there. About 3,500 delegates attended the opening session.

Governor Hadley of Missouri, in welcoming the delegates to the state, urged advanced agricultural methods. He asserted that fully 40 per cent of the land in this country is being farmed so that its productive qualities are decreased.

Henry Wallace of Des Moines, president of the congress, in replying to the welcome, assailed the farmer as a soil robber and pleaded for more scientific farming. He cited that land in the United States produced crops but one-half the size of those grown on poorer land in Europe. In his plea for a "back to the farm" movement and a betterment of social conditions in the country, he said the city "uses up men and families as it uses horses." The solution of the high cost of living problem lies in better farming methods, he said.

Every state in the union was represented by a delegation and Thomas R. Shipp, executive secretary of the congress, said this year's meeting was the most representative the congress has ever held.

### Taft Speaks on Soil Conserving.

President Taft, as the guest of the congress, delivered an address last night.

The president's speech was statistical in its nature and called attention to the urgent need of conserving the farm lands of the country. He predicted that the "back to the land" movement would be larger during the next ten years. The improvement of agricultural education was urged as a solution of the problem of increasing the food supply. While the soil is being stripped of its fertility under present farming methods in many sections, the president said he is not of the opinion that the time ever will come when the United States will be unable to feed its own people.

Mr. Taft spent a hurry-up day in southeastern Kansas, making addresses at eleven of the prosperous little towns that dot that section of the state. The president was tired, but happy over the warmth of the reception that the progressive Kansans had given him.

### Illinois Central Clerks Go on Strike.

## SEARCH FOR BIG RESERVE

**Flagg and Associates Said to Have Large Sum Planted.**

### BANKRUPTCY PETITIONS FILED

**Nearly Two Hundred Thousand Dollars Received Since September First Is Not Yet Accounted For—Prisoners Released on Bail.**

New York, Sept. 26.—The postoffice authorities took steps to lay their hands on a large sum, said to be more than \$100,000 in cash, which they believe was kept in reserve by Jared Flagg, Jr., and others, who are charged with violating the postal laws to defraud investors.

Flagg and his alleged associates, former United States Treasurer Daniel N. Morgan, F. Tennyson Neely, formerly a publisher, and others, spent two days in jail.

Alvin M. Higgins, the lawyer who is said to have been the legal adviser of Jared Flagg, was the first of the prisoners to secure his release on bail, when the \$10,000 bond required was furnished.

Flagg was released on a bond for \$25,000, given by his brother, Ernest. Joshua Brown furnished a bondsmen for \$2,500. Brown is accused of being one of the firm's "cappers."

To prevent the accused stock brokers from reaching their reserve fund before the federal authorities can get control of it, the postoffice inspectors prepared to have some of Flagg's customers file a petition in bankruptcy against him. In addition to \$67,000 in cash, which the inspectors declare Flagg and his partners kept in a safe deposit box, it is said that \$191,000 has been received since Sept. 1 from investors anxious to profit by the firm's offer of 52 per cent a year return.

The federal officers have collected a number of witnesses, four of whom they say have turned over to Flagg's concern as much as \$60,000.

The books and correspondence seized in the raid reveal that money came from all parts of the country. By far the largest number of investors outside of New York city, it is said, live in Bridgeport, Conn., the home of Daniel N. Morgan. Ithaca, N. Y., is said to be a close third and Franklin, Pa., next.

The detectives say that the weekly luncheons given customers at a famous restaurant near Flagg's offices were a strong feature of his campaign. At these functions no expense was spared, although his conversation seldom touched on business.

A pretty nineteen-year-old girl is said to have played an important part in Flagg's financial operations.

### No Cigarettes in Minneapolis.

Minneapolis, Sept. 26.—It required gum shoes and a long standing acquaintance to get a package of cigarettes in Minneapolis. In most tobacco stores even these credentials were unavailing. The clamping down of the lid followed the arrest of three clerks in cigar stores under the anti-cigarette law passed by the legislature in 1909. A test case will be made.

### Ohio Cow Sets World Record.

Columbus, O., Sept. 26.—The dairy department of the Ohio state university was notified that another world's record had been broken by an Ohio cow. A cow owned by Daniel Dimmick of East Claridon completed a seven-day record by producing 18.2 pounds of butter.

The ideal heating stove is one which radiates all the heat thrown off from the fuel—into the room—instead of letting it go up the chimney. The durable heater is the one which will withstand the severe use, year after year, which a heating stove is necessarily subjected to. Sheet steel is the quickest radiator of heat and is used as radiating surface only in Cole's Hot Blast heater. Wherever the fuel comes in contact with the linings—only first quality gray cast iron is used. Cast iron withstands the wear of the heat from active combustion better than any other material, and the large, sensitive, sheet metal body and base radiate all the heat into the rooms. #### For Speedier Justice.

The appointing of a committee by the Missouri Bar association to work for the reform of the judicial procedure in this state ought to give a strong impetus to the movement for a larger measure of justice from the courts. Dean Lawson, the head of the committee, has long been a leader in the fight for reform, and it may be expected that under his direction an adequate relief measure will be framed and put up to the next legislature with the indorsement of the bar association.

So long as the lawyers themselves as a body were indifferent to abuses in court procedure, there was little chance for progress. But with the State Bar association urging action there will be no excuse for the legislature to fail to respond.

As President Taft said in St. Louis Saturday, the evils of the present sys-

tem constitute one of the great sources of discontent in the United States.—Kansas City Times.

Keep a Box of Mi-o-na In Your House and You'll Always Have One.

Some people eat too much, some drink too much, and hundreds of thousands of men smoke too much—especially in the evening.

Use discretion if you can, but if you can't, use wisdom. Take two Mi-o-na stomach tablets before you go to bed and you'll awake minus a headache in the morning.

Mi-o-na stomach tablets are guaranteed to end indigestion, acute or chronic; to promptly banish gas, heartburn, sour risings, etc. They are the best remedy for dizziness, biliousness, nervousness, headache, constipation, vomiting of pregnancy, car or sea sickness, foul breath, night sweats, bad dreams, coated tongue, languid feeling.

And a box only costs 50 cents at the Orear-Henry Drug Co. and druggists everywhere.

## W. J. BRYAN ANSWERS PRESIDENT TAFT

Knoxville, Tenn., Sept. 25.—Answering the challenge of President Taft, made in Cherryvale, Kan., today, that he produce an example of restraint of trade which would not come within the purview of the supreme court, W. J. Bryan said tonight before his departure for Cincinnati:

"If President Taft would take time to read the dissenting opinion of Justice Harlan in the oil case and a report of the judiciary committee of the senate, filed by Senator Nelson when the committee refused to recommend the amendment which the supreme court injected into the law, he will understand my view of the subject.

"I believe with Justice Harlan and the Nelson report that the supreme court has practically nullified the criminal clause of the anti-trust law, and will wait until the president succeeds in putting a trust magnate in the penitentiary before I give any weight to the president's defense of the decision of the supreme court.

"It took four years and a half to get the decision in the Standard Oil case. If it takes that long to find out whether a trust magnate can be sent to the penitentiary under the law as emasculated by the supreme court, President Taft may be able to bluff his way through another campaign on the trust question as he did through the last, but the bluff ought not to deceive anybody who is really opposed to the trusts."

## TO HAVE AUTOMOBILE FLOWER PARADE

The automobile flower parade is to be given on Tuesday, October 10, the second day of the Maryville free street fair. The committee in charge of this parade are R. G. Sanders, Ralph Marcell and Harry Alderman. As yet no meeting of the committee has been had, but one will be in the next few days.

## WILL JUDGE CATTLE TO HIRE ENGINEERS

C. D. BELLONS AND E. F. CALDWELL AT ST. JOSEPH THIS WEEK.

## EXPECT TO WIN RIBBONS IF COUNCIL APPROVES

Catterson Entries Are Among the Very Best in the Aberdeen-Angus Class.

The International Live Stock show opened at St. Joseph Monday and will continue the rest of the week. Charles D. Bellows of this city will judge the Aberdeen-Angus and the Galloway divisions.

J. E. Dowden of this city has a few exhibits in the shire class at the show. The St. Joseph News-Press, in speaking of Omer Catterson's fine bunch of Aberdeen-Angus cattle, says: "Omar Catterson and son, Albert R. Catterson, of Maryville, Mo., are here with twelve splendid Aberdeen-Angus cattle and they hope to carry off many ribbons. Mr. Catterson is one of the directors of the show and has many friends here."

Miss Quality, a 2-year-old heifer, is one of the headliners in the Catterson herd. She has been showing ever since she was a calf and has never stood lower than second. While a calf she was in a herd of five that took first premium at the international show. As a yearling she took second here last year and also at Chicago. The only animal that ever defeated her was Barbara Woodson, a heifer owned by W. J. Miller of Newton, Ia. Barbara Woodson, by the way, is here again this year.

Another headliner in the Catterson herd is Queen Quality Lad, a 2-year-old bull. He was at the head of the calf herd of five that took first place at the great Chicago show in 1909. All of that herd was bred by Omar Catterson and son. Queen's Quality Lad was first everywhere as a calf in 1909 and was second in 1910 as a yearling.

Mr. Catterson claims for the Aberdeen-Angus that they dress out better than any other breed of beef cattle. He says they are smoother and have less fat and waste than either the Shorthorns or Herefords.

## MAY TAKE RUN TO CLARINDA SUNDAY

A sociability run will probably be made by the Maryville Automobile club to Clarinda, Ia., Sunday. However, it has not been definitely decided.

### Auto Party Returned From Clarinda.

## TO HIRE ENGINEERS

BOARD OF PUBLIC WORKS DECIDED ON HIRING TWO FIRMS.

## IF COUNCIL APPROVES

Burns & McDonald and Hiram Phillips Will Be Hired—Council is Meeting This Afternoon.

The board of public works met Tuesday morning and decided on hiring two engineering firms—Hiram Phillips of St. Louis and Burns & McDonald of Kansas City—if this will meet with the approval of the city council. The object of hiring two firms and working independently of one another, the board believes, will be the best possible way for the city to arrive at a true value of the present water company's plant and for any other estimate or valuation they want in getting the municipal water plant started in Maryville.

A meeting of the city council is called for this afternoon at 3:30 when they will decide whether the board of public works should hire two engineering firms. It is thought that the city will give their consent to the board to do so.

## ASSISTANT POSTMASTERS NOW UNDER CIVIL SERVICE

"The assistant postmaster has been taken out of politics. He is no longer at the mercy of political preference. By the postmaster general's recommendation his classification under the civil service laws has been made identical with that of all other postal employees subject to civil service."

The foregoing statement, made by George Daniel, inspector-in-chief of the postal service in Missouri, Arkansas, Oklahoma and Texas, to the annual convention of the Missouri State Association of Assistant Postmasters at Kansas City yesterday.

Although postmasters may come and go, the assistants will stay on, Mr. Daniel explained. Besides, they will be given opportunities for advancement impossible under the old system. They can now be promoted to larger cities, with bigger salaries, or given inspectorships, which also pay better salaries.

## ONE MORE REST ROOM FOR STREET FAIR

Dr. G. A. Nash has offered his office rooms as a temporary resting place for visitors to the Maryville street fair, October 9 to 14.

This brings to mind the fact that the women of the Twentieth Century club and the charity board have endeavored to bring up the matter of permanent rest rooms at various times. The charity board found out that there is an excellent place, large and roomy, in the basement of the court house that is only waiting to be set apart for such purpose and furnished. It is also said that it is probable that a room in the basement of the city library may be furnished for a rest room during the street fair, at least, and maybe permanently.

## WAS A PROMINENT REBEKAH IN KANSAS

Miss Harriet Noble of Coleridge, Kan., who has been visiting a few days at the home of her cousin, Charles E. Jones, and family, north of the city, and with Mrs. Elmer Fraser and other old friends, left Tuesday morning for her home. Miss Noble came to Maryville Saturday with the body of her sister, Miss Mary Noble, who died at their home Thursday morning after a long illness of typhoid fever. Miss Noble had always been in good health previous to her last illness. She was a prominent member of the Rebekah lodge in Kansas, and was to represent Kansas at the national assembly to be held in Kansas City.

Miss Harriet Noble, who was a well known teacher of this county, met a number of her former pupils while here. Her father, Judge M. D. Noble, is 84 years old and is in very feeble health. Mrs. Noble died in 1883, and the body of their daughter was buried by the mother in Miriam cemetery.

## JERRY SAYLER WITH BANK IN DES MOINES

Jerry Sayler of Des Moines, Ia., the son of Judge and Mrs. J. H. Sayler of this city, has just accepted a position with the Commercial Savings bank of Des Moines and will commence his duties the first of October. The offer of this position came to the young man unsolicited. He has been in the offices of the American Yeoman the past two years and was holding next to its highest salaried position. On Monday of this week he was called by phone to the president's office of the Commercial Savings bank and was made an offer that means advancement in the future, and after seeking advice from his American Yeoman employers, he decided to accept it. This certainly speaks well for Jerry. Another Maryville boy is doing his home town honor.

## AFTER CONFERENCE

MARYVILLE WANTS THE M. E. CHURCH CONFERENCE NEXT YEAR

## TO BROOKFIELD THIS WEEK

Where the Annual Conference Will Be in Session This Week—Maryville Entitled to It.

Dr. J. S. Ford, pastor of the First M. E. church of this city and Presiding Elder W. B. Christy of the Maryville district, left Tuesday for Brookfield, Mo., where they will attend the annual Missouri conference of the Methodist Episcopal church. E. C. Curman will probably leave Friday to attend the conference as a lay delegate from the local church.

Efforts will be made by the First M. E. church and Maryville to secure the conference for 1912. This was decided at a meeting held Monday night of the quarterly conference. It has been twelve years since the conference has met in Maryville, and the local church feels that this city is entitled to it for next year.

The conference brings many people to a city, and besides the religious good, it is a great benefit to any city to have the meeting of the conference.

Maryville would be glad to have the conference meet here in 1912, and it is needless to say that they will be entertained royally if they decide to come.

## 350 FRENCH SAILORS KILLED

Battleship *Liberte* is Wrecked When Fire Reaches Magazines.

SHIP IS TOTALLY DESTROYED.

Pride of French Navy Shattered by Explosion—Bodies of Victims Hurling High in Air—Cruiser *Republique* Is Badly Damaged.

Toulon, France, Sept. 26.—Between 350 and 400 men of the French battleship *Liberte* lost their lives when the ship was torn apart and totally destroyed in the harbor here by an explosion of her magazines. The battleship *Republique* was badly damaged and the battleships *Democratique* and *Verite* also suffered severely from the masses of twisted iron and armor plate hurled upon their decks.

This is the greatest disaster that has ever fallen upon the French navy and in magnitude is almost without precedent in the annals of the world's fighting ships.

The explosion, which wiped out one of France's newest and most powerful battleships, occurred at 5:53 o'clock in the morning. It was preceded and was the result of an outbreak of fire. The flames spread rapidly in spite of all efforts to extinguish them and reached the magazines before there was time to flood them. The magazines exploded with tremendous violence, sowing death and destruction in every direction.

It is impossible to tell the full number of fatalities. Several men already have been taken alive from the torn and twisted mass of wreckage which was once the *Liberte*, and the hope is strong that there are others who can be reached.

Fire Cause Unknown.

Exactly from what cause or when the fire broke out has not been established, but it is believed it had smoldered for hours. Of the vessel's full complement of 742, Captain Jaures, brother of the Socialist leader, and the second officer in command were both ashore on leave, as well as 140 officers and men. The command of the ship devolved upon the senior lieutenant, who perished.

The fire was first discovered at 4 a. m. and the tugboats immediately sounded the alarm. The crew rushed to quarters and fought desperately the spreading flames, but it was soon evident that the fire had obtained a firm hold.

The position of the fire made it impossible to flood the magazines, nevertheless efforts to do so were made, and finally the commanding officer shouted to the men to jump for their lives.

At 5:45 the first explosion occurred. It was followed by three others at one-minute intervals. Then came the final terrific detonation, which shattered the windows of the entire city and was heard for many miles.

The *Liberte* was rent asunder, her bows were thrown high in the air and then the vessel slowly settled down and in nineteen minutes nothing was visible but the top works.

Men Hurling Skyward.

Those still on deck were hurled skyward amid a shower of iron and steel. The boats of the rescuers were sunk and serious damage was done to the *Republique*, which lay at anchor close by. Two of her decks were stove in and one of the *Liberte's* armor plates was hurled against her port side and demolished the cabin of an absent engineer.

The work of rescue was quickly begun. Electric shears to cut through the plates and a powerful floating crane to lift the masses of steel were used in conjunction with divers, who are at work exploring the interior of the hull.

## RELIEF FOR FRENCH POOR

Parcels Post Limit for Perishable Foods Is Raised to Eighty Pounds.

Paris, Sept. 26.—In view of the increased cost of food, the government has induced the railroads to increase the twenty-pound limit of the agricultural parcels post to eighty pounds for perishable foods.

The Socialist meeting to protest against war, held here, was a fiasco. It was expected that 200,000 would attend. The meeting was actually attended by about 4,000 and of that number fifty were arrested. One policeman was injured.

## CONDENSED NEWS

That a registered package containing a bank shipment of between \$25,000 and \$30,000 in currency was stolen from the St. Louis postoffice a year ago became public for the first time. The thieves have not yet been apprehended.

James J. Hill has given \$20,000 to Zion Methodist church at Winnipeg, Man. The Great Northern Railway church off onto a narrow strip of ground, with the Great Northern on one side and the Canadian Pacific on the other.

Charges that Joseph Leiter had failed to make payments on notes given for wheat in his memorable attempt to corner the market in 1897 and 1898 were made in a suit for \$300,000 filed at Chicago by F. M. Peavey & Co., the holding company of the Peavey Grain company.

## BROKER'S AIN BY WIFE

C. A. Patterson Shot by Spouse in Denver Suburb.

Denver, Sept. 26.—Charles A. Patterson, formerly a wealthy broker of Chicago, was shot and killed by his wife, Mrs. Gertrude G. Patterson. Charges of infidelity, threatened divorce suits and other marital troubles are given as the cause.

The shooting occurred in Montclair, a suburb. Two shots were fired, both striking Patterson in the back. Mrs. Patterson then thrust the revolver under her husband's body and informed bystanders that her husband had shot himself. Later she confessed when confronted with a statement by an eye-witness of the shooting.

Months of matrimonial disorder culminated in Mrs. Patterson filing suit for divorce in the Denver courts on Sept. 1, 1911, charging cruelty. On Sept. 20 Patterson brought suit in Chicago against Emil W. W. Strauss, millionaire clothing manufacturer, asking \$25,000 damages for alienation of his wife's affections.

Patterson charged that four months after his marriage on Oct. 1, 1908, Strauss and Mrs. Patterson eloped and spent several months traveling in Europe.

Seven months ago, accompanied by his wife, Patterson came to Denver and, because of failing health, entered a sanitarium for consumptives.

Mrs. Patterson called at the sanitarium and the couple left for a walk. That the pair engaged in a heated argument just prior to the shooting is declared by a person who claimed to have watched them.

Patterson's mother is principal of one of Chicago's public schools. Mrs. Patterson comes from a prominent St. Louis family.

## COUPLE FOUND DEAD ON RANCH

Dead Woman Daughter of Ex-Governor of Wyoming.

Cheyenne, Wyo., Sept. 26.—Mrs. Edna Richards Jenkins, youngest daughter of former Governor W. A. Richards of Wyoming, and her husband, Thomas Jenkins, assistant manager of the Richards ranch near Red Bank, Wyo., were found dead with bullet holes through their bodies. Jenkins' body was found in bed in the ranch house, while Mrs. Jenkins was under a tree in the yard. The discovery was made by children of former State Senator George McClellan, a partner of Richards in the cattle business.

It is not known whether both were murdered, or whether Jenkins killed his wife and then committed suicide.

## AFFAIRS IN MOROCCO EASIER

Paris Expects Agreement With Germany in Near Future.

Paris, Sept. 26.—While the Franco-German agreement on Morocco cannot be definitely regarded as an accomplished fact until it is known how Herr von Kiderlin-Waechter, the German minister of foreign affairs, receives the newly revised French text, no doubt is entertained that the first part of the negotiations will be quickly ended by a complete understanding, without further pourparlers or an exchange of notes.

The second part of the negotiations, which concern the Congo, will be commenced shortly. During the progress of the negotiations France and Germany will take all necessary steps to secure the cohesion of the powers in the new situation in Morocco resulting from the agreement.

This task is not likely to present special difficulties, except in the case of Spain. The coolness which exists between France and Spain over the Moroccan policies somewhat complicates affairs, but French opinion declines to admit that the two Latin sisters will remain embroiled and believes that the good sense of Spain will soon lead her to realize that her interests will best be served by facilitating the mission of France in Morocco.

## MILLIONAIRE GOES BROKE

Charles F. Nisson of Kansas Misses Money and Is Penniless.

Boston, Sept. 26.—A penniless millionaire is not a common sight, but Charles F. Nisson, one of Kansas' wealthiest produce men, came near answering that description when he arrived here from Naples on the liner *Canopic*. Nisson's temporary financial embarrassment was due to the failure of the *Canopic* to make its scheduled stop at Almeria, Spain, where his bankers had sent him a remittance. Funds were awaiting the *Canopic* when the vessel docked here.

## Milkman Finds Death Note.

Port Clinton, O., Sept. 26.—A note left in a milk pan instructing the milkman to notify the authorities that the author was dead was Mrs. Sarah K. Burg's method of telling the public she had committed suicide by drinking carbolic acid here. She was despondent.

## Pettit Killed as Result of Feud.

Livingston, Va., Sept. 26.—James A. Pettit of Roseland, thirty-eight years old, a colonel on Governor Mann's staff, was shot and killed by Benjamin Hubbard on a hotel porch here. There was an old grudge between the families. Hubbard fired six shots at Pettit, all taking effect.

## FARMERS CALLED SOIL ROBBERS

Henry Wallace Makes Plain Talk at Conservation Congress.

URGES SCIENTIFIC METHODS.

Makes Plea for Back to Farm Movement and Betterment of Social Conditions in Country—Hadley Says Present Methods Are Wasteful.

Kansas City, Sept. 26.—Plain words were used by speakers at the opening session of the third annual conservation congress here in pointing out that the continuation of present day farming methods will result calamitously for the country. Not only a change in the treatment of the soil, but of the country people as well was

THOMAS R. SHIPP.

urged. Only by bettering social conditions on the farm, it was declared, could the young persons be kept there. About 3,500 delegates attended the opening session.

Governor Hadley of Missouri, in welcoming the delegates to the state, urged advanced agricultural methods. He asserted that fully 40 per cent of the land in this country is being farmed so that its productive qualities are decreased.

Henry Wallace of Des Moines, president of the congress, in replying to the welcome, assailed the farmer as a soil robber and pleaded for more scientific farming. He cited that land in the United States produced crops but one-half the size of those grown on poorer land in Europe. In his plea for a "back to the farm" movement and a betterment of social conditions in the country, he said the city "uses up men and families as it uses horses." The solution of the high cost of living problem lies in better farming methods, he said.

Every state in the union was represented by a delegation and Thomas R. Shipp, executive secretary of the congress, said this year's meeting was the most representative the congress has ever held.

## Taft Speaks on Soil Conserving.

President Taft, as the guest of the congress, delivered an address last night.

The president's speech was statistical in its nature and called attention to the urgent need of conserving the farm lands of the country. He predicted that the "back to the land" movement would be larger during the next ten years. The improvement of agricultural education was urged as a solution of the problem of increasing the food supply. While the soil is being stripped of its fertility under present farming methods in many sections, the president said he is not of the opinion that the time ever will come when the United States will be unable to feed its own people.

Mr. Taft spent a busy day in southeastern Kansas, making addresses at eleven of the prosperous little towns that dot that section of the state. The president was tired, but happy over the warmth of the reception that the progressive Kansans had given him.

## Illinois Central Clerks Go on Strike.

New Orleans, Sept. 26.—Between 500 and 700 railway clerks employed by the Illinois Central and Yazoo and Mississippi Valley railroads walked out shortly after noon. It is said the strike resulted from the failure of the railroad officials to reopen negotiations with the clerks' organization.

## Turks Capture Italian Vessel.

## SEARCH FOR BIG RESERVE

Flagg and Associates Said to Have Large Sum Planted.

BANKRUPTCY PETITIONS FILED

Nearly Two Hundred Thousand Dollars Received Since September First Is Not Yet Accounted For—Prisoners Released on Bail.

New York, Sept. 26.—The postoffice authorities took steps to lay their hands on a large sum, said to be more than \$100,000 in cash, which they believe was kept in reserve by Jared Flagg, Jr., and others, who are charged with violating the postal laws to defraud investors.

Flagg and his alleged associates, former United States Treasurer Daniel N. Morgan, F. Tennyson Neely, formerly a publisher, and others, spent two days in jail.

Alvin M. Higgins, the lawyer who is said to have been the legal adviser of Jared Flagg, was the first of the prisoners to secure his release on bail, when the \$10,000 bond required was furnished.

Flagg was released on a bond for \$25,000, given by his brother, Ernest. Joshua Brown furnished a bondsman for \$2,500. Brown is accused of being one of the firm's "cappers."

To prevent the accused stock brokers from reaching their reserve fund before the federal authorities can get control of it, the postoffice inspectors prepared to have some of Flagg's customers file a petition in bankruptcy against him. In addition to \$67,000 in cash, which the inspectors declare Flagg and his partners kept in a safe deposit box, it is said that \$191,000 has been received since Sept. 1 from investors anxious to profit by the firm's offer of 52 per cent a year return.

The federal officers have collected a number of witnesses, four of whom they say have turned over to Flagg's concern as much as \$60,000.

The books and correspondence seized in the raid reveal that money came from all parts of the country. By far the largest number of investors outside of New York city, it is said, live in Bridgeport, Conn., the home of Daniel N. Morgan. Ithaca, N. Y., is said to be a close third and Franklin, Pa., next.

The detectives say that the weekly luncheons given customers at a famous restaurant near Flagg's offices were a strong feature of his campaign. At these functions no expense was spared, although his conversation seldom touched on business.

A pretty nineteen-year-old girl is said to have played an important part in Flagg's financial operations.

## No Cigarettes in Minneapolis.

Minneapolis, Sept. 26.—It required gum shoes and a long standing acquaintance to get a package of cigarettes in Minneapolis. In most tobacco stores even these credentials were unavailing. The clamping down of the lid followed the arrest of three clerks in cigar stores under the anti-cigarette law passed by the legislature in 1909. A test case will be made.

Columbus, O., Sept. 26.—The dairy department of the Ohio state university was notified that another world's record had been broken by an Ohio cow. A cow owned by Daniel Dimmick of East Claridon completed a seven-day record by producing 18.2 pounds of butter.

## FREE FOR STOMACH AND BOWELS

We are in receipt of letters from Mrs. Eva Gaskins, 304 Madison St., Topeka, Kan., and Mr. P. H. Gavelas, Wagoner, Okla., as well as many others, telling about the wonderful results they have secured in the cure of their stomach and liver troubles by the use of Dr. Caldwell's Syrup Pepsin.

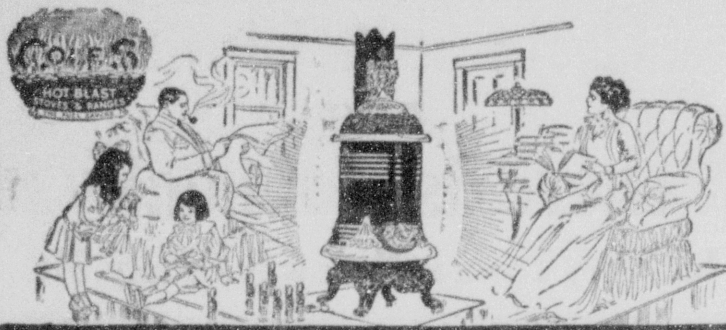

This remedy, as all readers doubtless know, has been before the public for a generation and is now being more extensively used than any other remedy for stomach, liver and bowel complaints. According to reliable testimony, it seems to be a very quick and lasting cure for constipation, indigestion and dyspepsia, liver trouble, biliousness, headaches, sour stomach, gas on the stomach, drowsiness after eating and similar disorders. It is a liquid with tonic effect, and so

mild and gentle in action that a child as well as a grown person can take it, in fact, it has no equal for children, women and old people.

It arouses the flow of gastric juice, and by a peculiar action trains the stomach and bowel muscles to again do their work naturally, and in time medicines of all kinds can be dispensed with. A free sample bottle can be had for trial by sending your address to the doctor, for in this way Mrs. Gaskins, Mr. Gavelas and many others first learned of the cure. Later, when satisfied it is the remedy you need, do as others are doing and buy it of your druggist at fifty cents and one dollar a bottle.

For the free sample address Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.

## Warm Floors Insure the Children's Health

Cole's Hot Blast Draft on top of the fire burns the coal from the top—burns the gas, which is wasted with all other stoves. The force of this down draft forces the heat to the base which is made of steel—cannot burn out—and heats the floor. Thousands of testimonials have been written regarding the base heating qualities of

### Cole's Original Hot Blast Heater

The ideal heating stove is one which radiates all the heat thrown off from the fuel—into the rooms—instead of letting it go up the chimney. The durable heater is the one which will withstand the severe use, year after year, which a heating stove is necessarily subjected to. Sheet steel is the quickest radiator of heat and is used as radiating surface only in Cole's Hot Blast heater. Wherever the fuel comes in contact with the linings—only first quality gray cast iron is used.

Cast iron withstands the wear of the heat from active combustion better than any other material, and the large, sensitive, sheet metal body and base radiate all the heat into the rooms.

#### For Speedier Justice.

The appointing of a committee by the Missouri Bar association to work for the reform of the judicial procedure in this state ought to give a strong impetus to the movement for a larger measure of justice from the courts. Dean Lawson, the head of the committee, has long been a leader in the fight for reform, and it may be expected that under his direction an adequate relief measure will be framed and put up to the next legislature with the indorsement of the bar association.

So long as the lawyers themselves as a body were indifferent to abuses in court procedure, there was little chance for progress. But with the State Bar association urging action there will be no excuse for the legislature to fail to respond.

As President Taft said in St. Louis Saturday, the evils of the present sys-

tem constitute one of the great sources of discontent in the United States.—Kansas City Times.

#### Forced to Leave Home.

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson of Calamine, Ark., "when all else failed and I gained forty-seven pounds in weight. Its surely the king of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup—all Throat and Lung troubles. 50c and \$1.00. Trial bottle free at the Orear-Henry Drug Co.

"Gentlemen av the jury, ye'll take your accustomed places, if ye please."

"And may I never laugh," said the baron, "if they didn't all walk into the dock!"—London Globe.
